

AI x VISTA SOCIAL

Plug Claude into your social tool.

What changes when your AI assistant works
inside Vista Social.

UNTIL NOW

AI tools could only advise you.

Caption suggestion → copy → switch tabs →
paste → do the actual work yourself.

AFTER CONNECTING

50+

**MCP tools available the moment you connect
Vista Social to your AI client.**

REAL PROMPTS THAT WORK TODAY

Three things it can do in one message

1

Triage your inbox in 10 seconds

"Review today's inbox across all profiles — complaints first."

2

Schedule a week of posts

"Schedule 5 posts next week: 2 product, 2 customer, 1 BTS. Spread Mon–Fri."

3

Benchmark your accounts

"Benchmark our Instagram and TikTok vs industry. Tell me 3 gaps."

“

You stay in control while it does the legwork.

— Vista Social MCP documentation

THE SHIFT

Advisor → operator

OLD WAY

AI as advisor

- ✗ Copy caption from chat
- ✗ Switch tabs to scheduler
- ✗ Pick times manually
- ✗ Build reports yourself
- ✗ Triage inbox by hand

NEW WAY

AI as operator

- ✓ One prompt, posts queued
- ✓ AI picks peak times
- ✓ Inbox sorted by urgency
- ✓ Weekly report on demand
- ✓ Drafts replies in your voice

SETUP

**Paste one MCP URL into Claude or ChatGPT.
No code. No second tool.**

Settings → Integrations → MCP in Vista Social

WHY THIS MATTERS

No major competitor ships this stack.

Hootsuite, Sprout, Buffer, Later — none of them have an MCP server. We do.

TRY VISTA SOCIAL MCP

Turn it on in two minutes.

Settings → Integrations → MCP. Works with Claude, ChatGPT, Cursor, Gemini, and more.
